

PERFORMANCE REVIEW REPORT

KIERAN CRAWFORD - MAY 2026

Generated via Tonbridge Swimming Analytics Engine

PERSONAL PERFORMANCE STORY**MOMENTUM**

Velocity: +36. You have converted training into 42 lifetime Personal Bests this season. Aggressive performance acceleration—racing significantly higher than seasonal baseline.

WORKLOAD

Training Consistency: You have met the squad criteria in 22 out of 46 swimmable weeks (48%). The club expectation is 75%+. In terms of pure volume, you have completed 310h out of a target 368h. This 58h deficit (approx. 39 missed sessions) directly impacts your aerobic ceiling.

MEETS

Meet Engagement: You have attended 13 Open Meets out of a seasonal target of 5. Excellent competitive engagement.

BENCHMARKS

County Standard: Your Peak (387 pts) is above the Kent AQT baseline of 278 pts.

BENCHMARKS

Regional Standard: You are within 35pts of the South East Regional Automatic standard (352 pts).

FORM

Current Form: Your recent 90-day average (329 pts) is heating up relative to your seasonal baseline (+44 pts).

STROKES

Breaststroke: Peak 367 pts. Target: County (266) | Regional (314).

STROKES

Freestyle: Peak 387 pts. Target: County (288) | Regional (377).

STROKES Butterfly: Peak 181 pts. Target: County (249) | Regional (328).

STROKES Backstroke: Peak 258 pts. Target: County (296) | Regional (319).

STROKES Individual Medley: Peak 299 pts. Target: County (280) | Regional (415).

COACHING Coach's Eye: Reliability Constraint: Performance volatility is linked to inconsistent training stimulus. Increasing attendance to 75%+ is the priority. Freestyle is your dominant discipline; use this momentum to set the pace in training. Strategic Focus: Targeted technical clinics in Butterfly could significantly elevate your aggregate health score.
